STAT

MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE:

SUBJECT: Production of Population and Manpower Studies

1. With reference to your memorandum, subject as above, dated 9 October 1947, a definite program for the production and dissemination of sociological intelligence is considered highly desirable.

2. It is felt that any program developed along these lines should become an integral part of a coordinated interdepartmental intelligence production plan.

3. The participation of interested outside agencies is necessary in studies leading to a solution of this problem. Meetings are in order to insure that representatives from all Government agencies concerned with population and manpower are afforded participation. It is believed that the results obtained would be of material assistance in the composition of an interdepartmental intelligence production plan.

GEO. F. SCHULGEN
Brigadier General, U.S.A.F.
